SPORTSVILLAGE

2020 STAY YOUNG

DYNAMIC EASE JOY

STAY YOUNG

Youth is much more than just a physical state—it's a frame of mind. It is to stay open minded, to stay positive, to stay determined in the face of the unknown. To wake each morning with the goal to become better than before. Most importantly, to Stay Young is to make a choice.

Circle Fitness is committed to helping you choose to Stay Young, regardless of your age, gender, or background. Our goal is to empower each person to transform from who they are into who they want to be—through the ultimate workout experience.

We understand the market, predict the trends, take ambitious approaches and offer unparalleled solutions to every exerciser and operator in the industry. We gather remarkable talent from all over the world, develop user-friendly designs and top-notch technology. We deliver the highest standards of profession and service.

Circle Fitness will continue to build on this legacy, not just moving forward and evolving, but breaking through and bringing a revolution to the workout industry—with you placed at the center of it.

CIRCLECLOUD GO

CircleCloud Go is a comprehensive wellness eco-system aimed to deliver most effective body and fitness management. With unique apps developed or popular apps integrated reaching your desired fitness goal has never been so accessible and fun.

Target achieved!

Congratulations! You have achieved your target in time!
You have earned a Gold Star!

Done

Earn Achievements

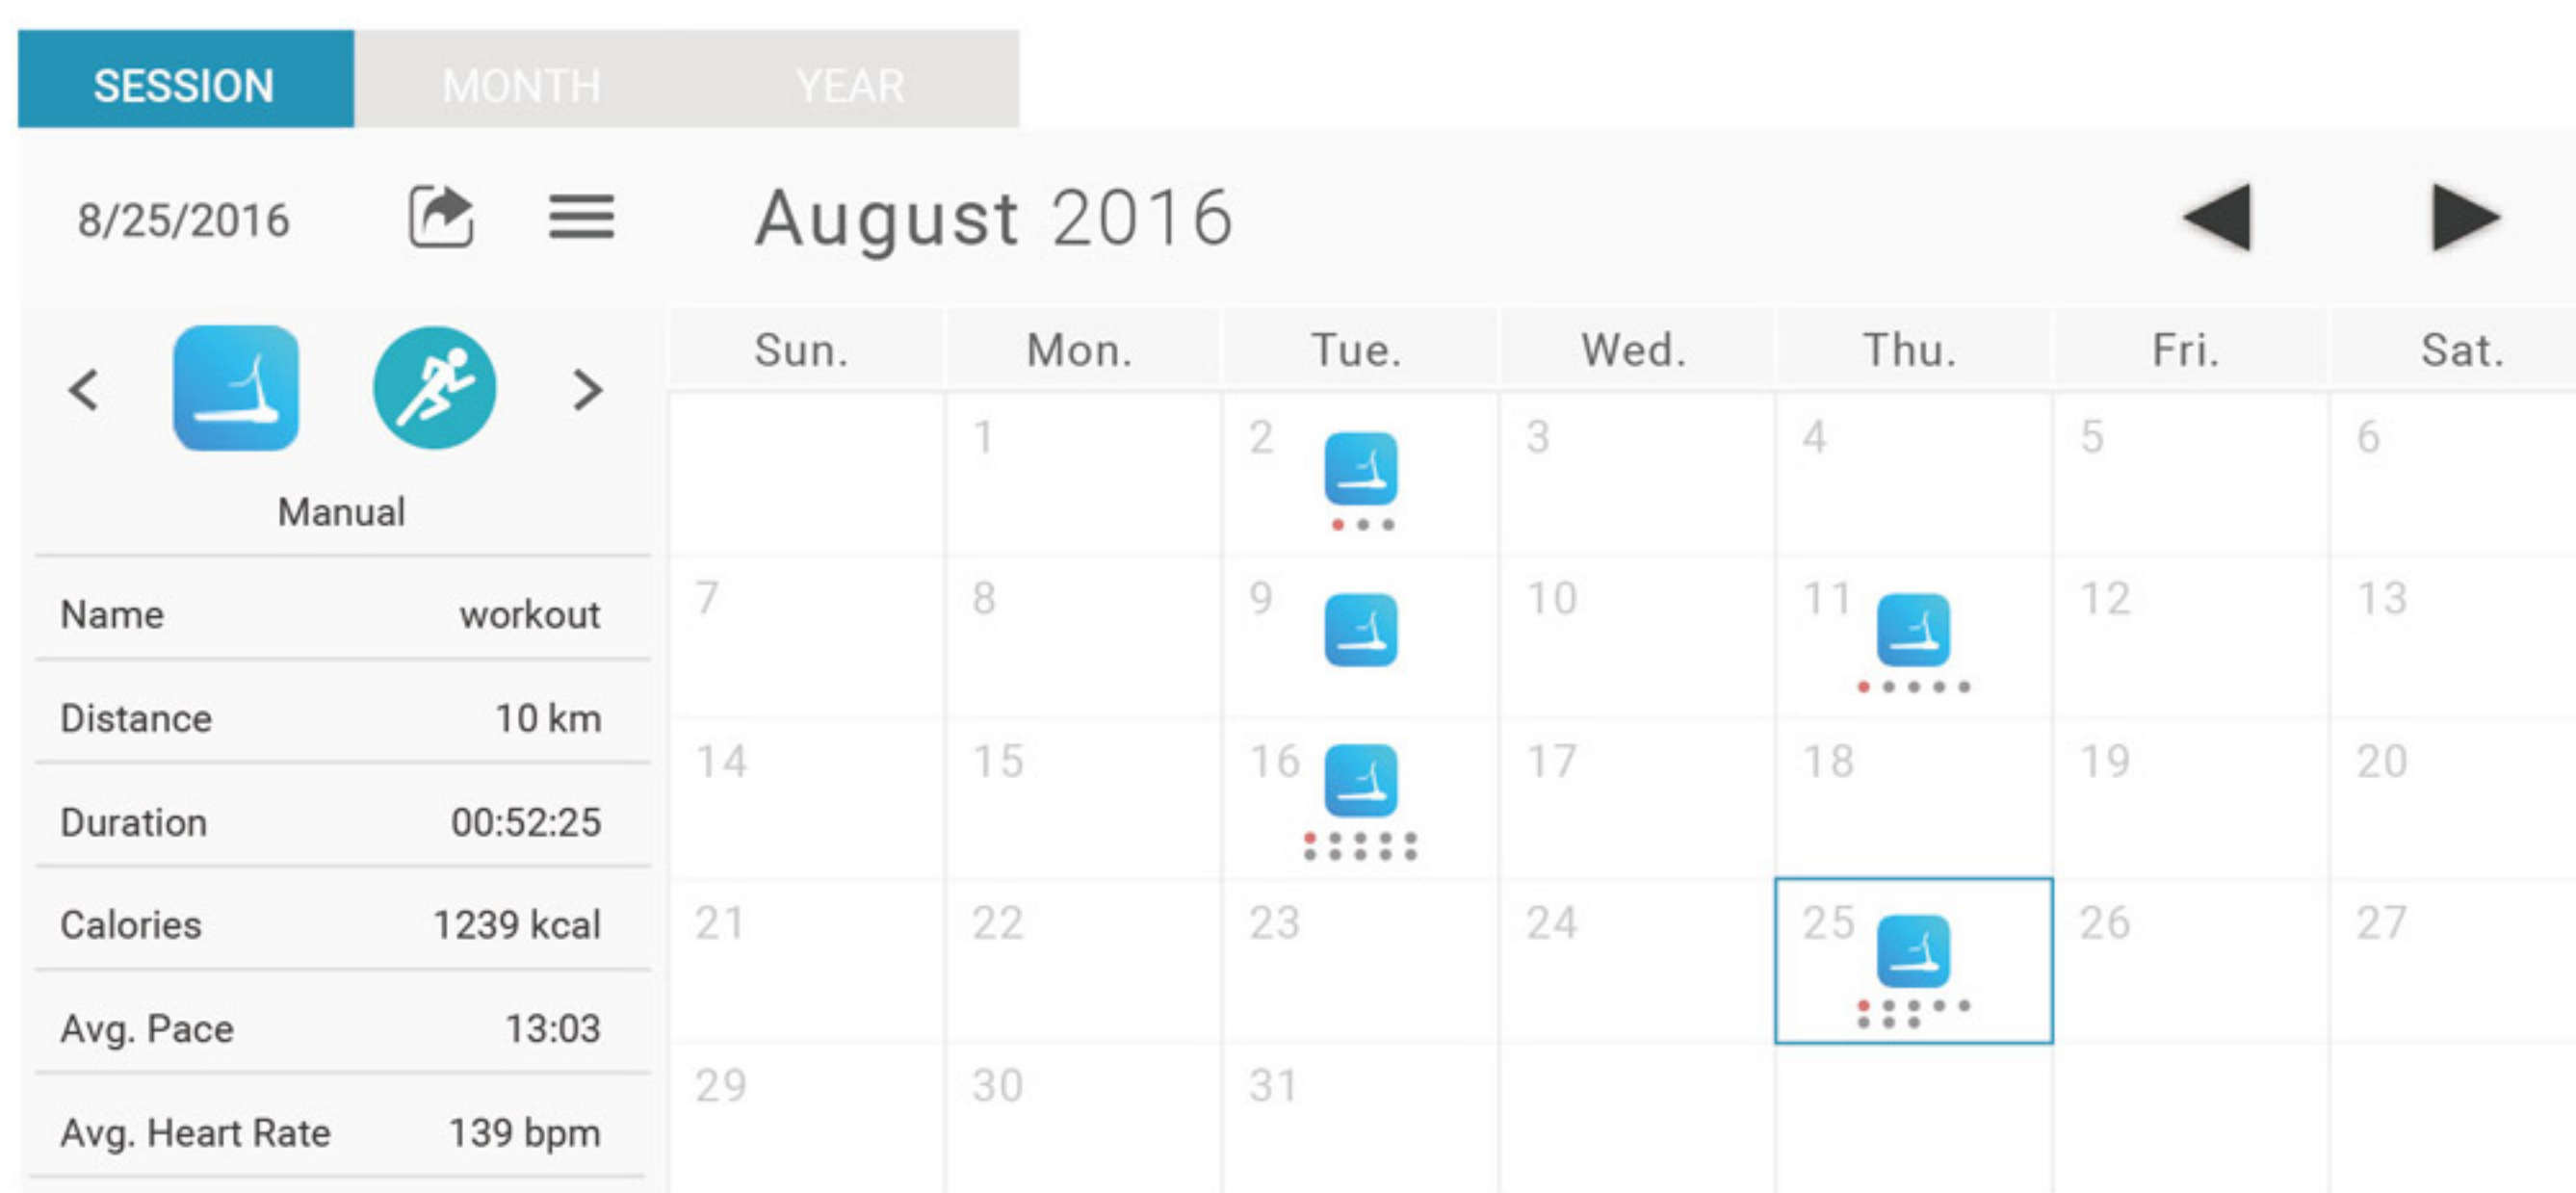

Earn achievements upon completion of your fitness target and stay motivated!

My Performance

Whether you are using our cardio equipment, outdoor fitness apps or wearable devices My Performance brings them all together to give you the best personal fitness performance information.

Session

We provide our users with information about each exercise session. Circle Fitness tracks your cardio equipment usage, outdoor fitness apps and wearable devices to bring you a detailed breakdown of your workout history.

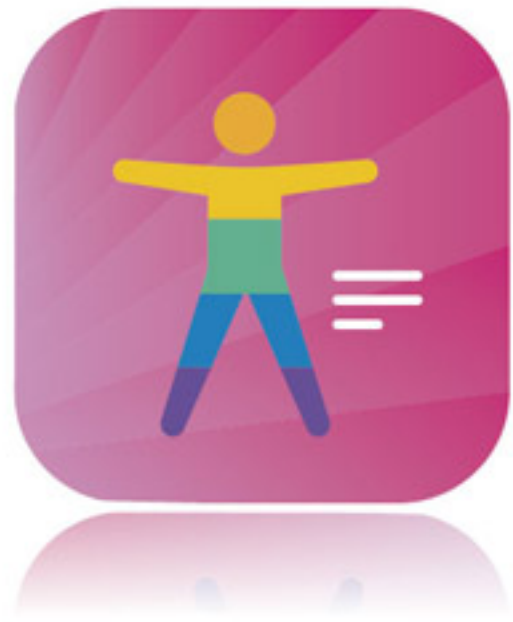

Month

Our Month-to-Month comparison charts break down your monthly performance into convenient charts for you to study and compare.

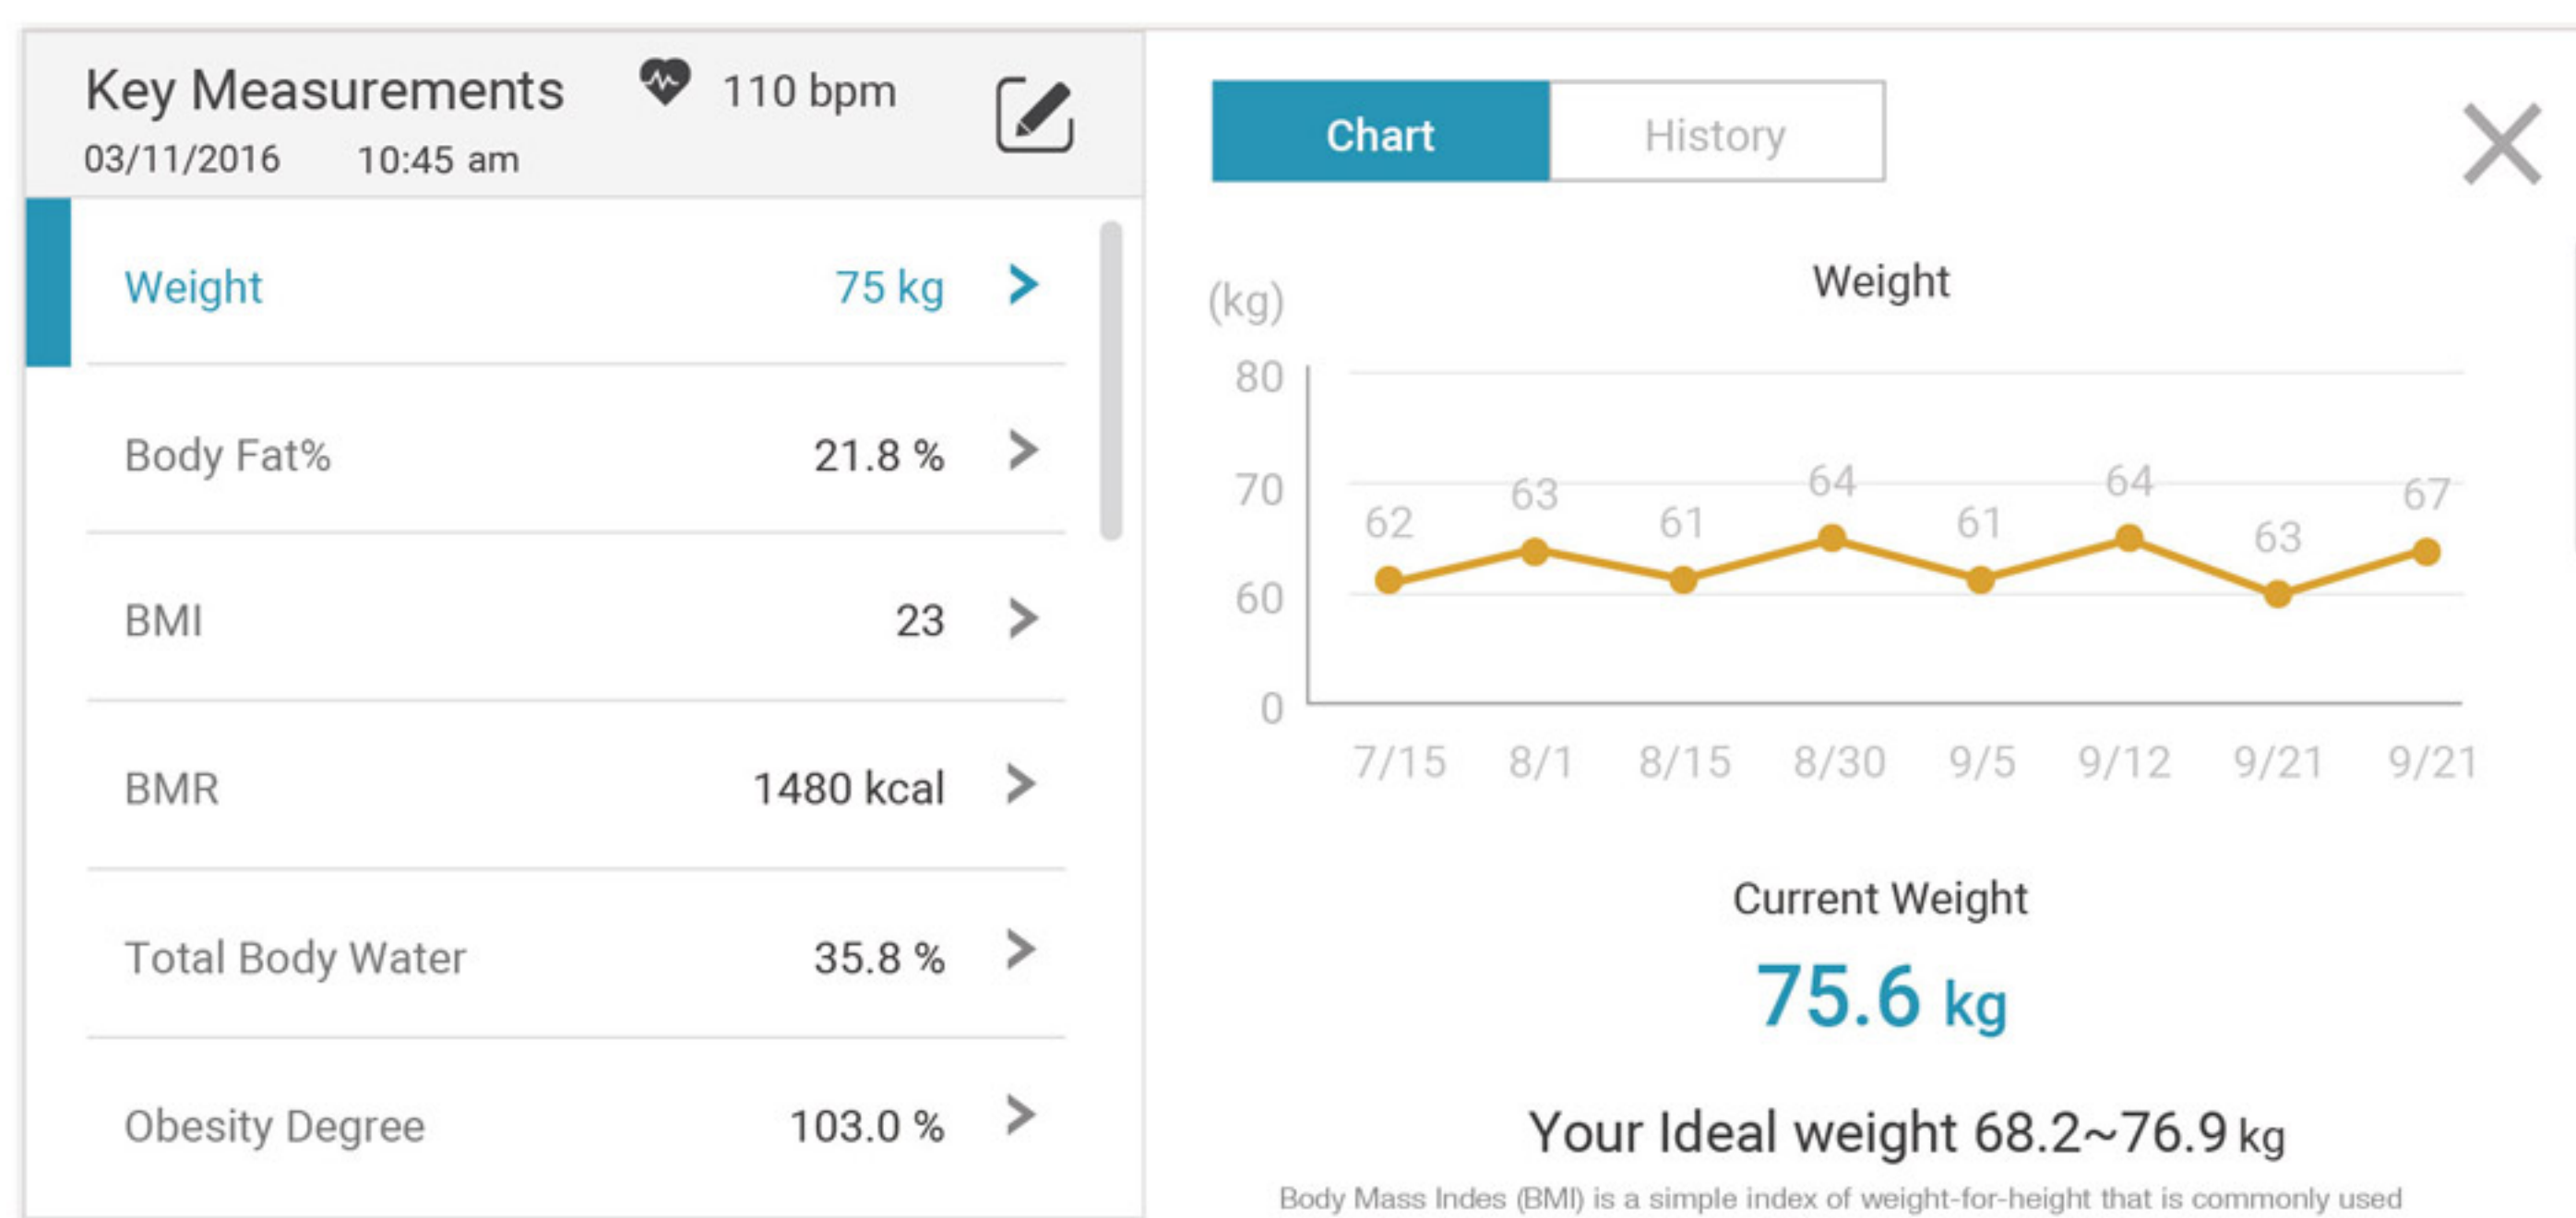

Year

We've extended our Year-to-Year charts to bring you yearly comparisons of your fitness, allowing you to review your long-term workout progress.

Body Manager

Our data integration technology compiles information from body analyzer InBody570 and translates it into simple graphs and tables. Managing your body has never been easier!

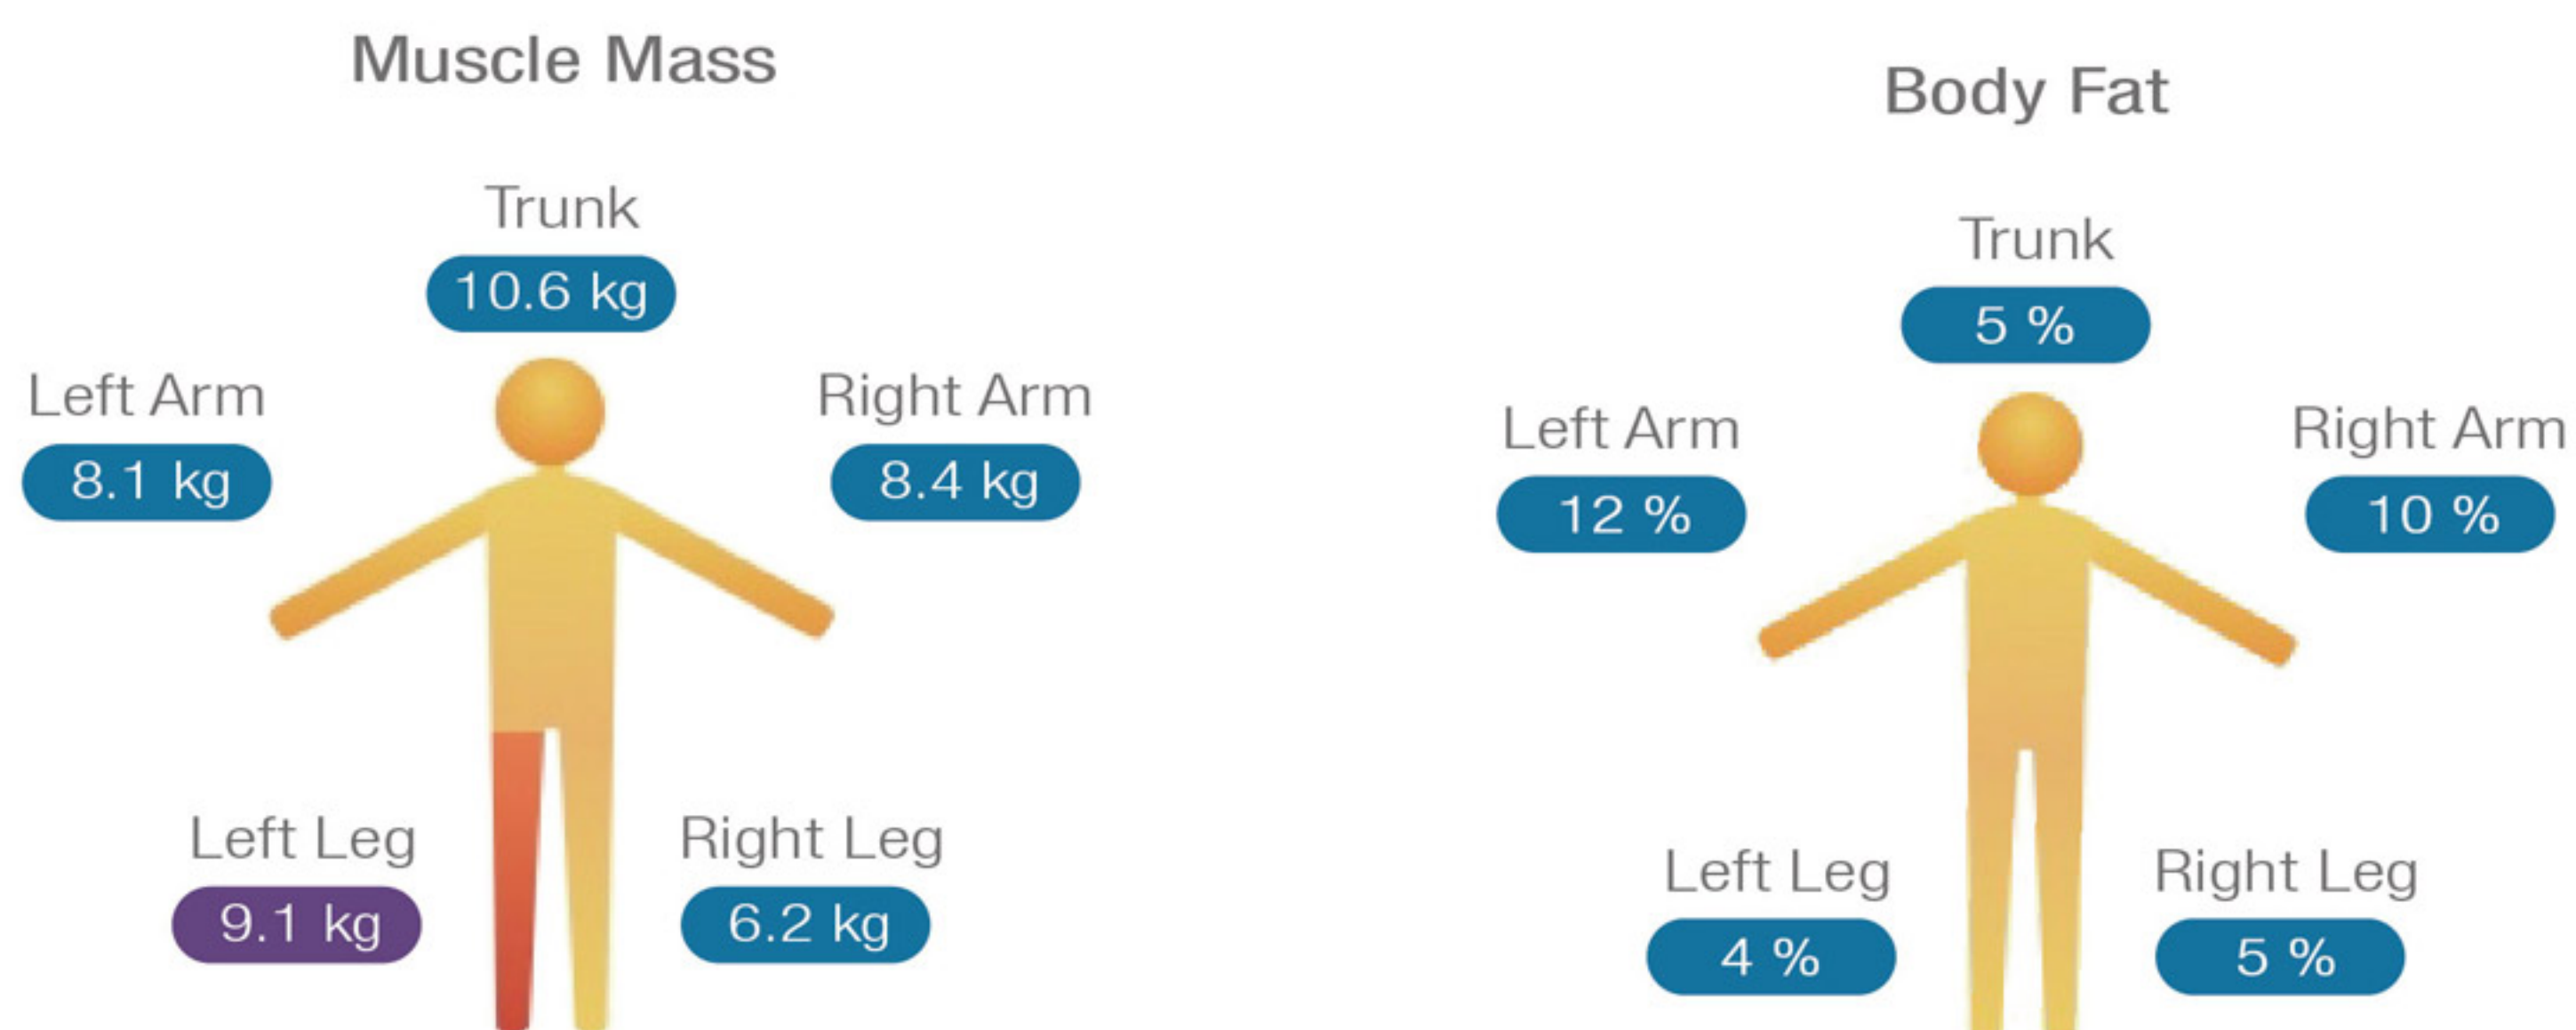

Key Measurements

Measured are the most important metrics for your fitness wellbeing. Now you could manage your body like a health instructor.

Detail

The ability to track your workouts for later review is an essential component of fitness management. Our History tracking displays your workout information in graphs to keep you well informed and in control.

Lower Body Imbalanced

Segmental Muscle Mass & Body Fat

Segmental body areas are analyzed to maximize your training result.

Accessibility

Enjoy total coverage of your body data with CircleCloud Go which facilitates real-time data syncing between our consoles, body analyzer and your phone via CircleFit app.

My Gym

My Gym keeps users up to date with the latest news, classes and offers from their facility. It also lets users customize their personal schedules by adding or removing classes from personal calendar.

Stay Informed

Our Bulletin function keeps users updated on the latest news and classes offered by their facilities.

Sync In

Enjoy all of the features offered from Circle-Cloud Go apps from your phone! You could monitor, track progress, create and edit contents all in real-time connection.

Quick Login with CircleFit

Log in into CircleCloud Go hands free with Quick Log In simply by opening CircleFit app from your phone and connect with the console or body analyzer via bluetooth.

Virtual Go

Virtual Go takes you out of your house and into the great outdoors through one of 10 gorgeous, interactive exercise experiences!

In the Forest

Start your day with a beautiful walk through nature, or refresh yourself after a long day of work. Adventure awaits!

Mountain Fall Scenery

Enjoy the scenery and get into the mood as you walk through the beautiful Pyrenees National Park.

Through the Forest

Run through the beauty of colors, or jog alongside the quiet of nature. Let the fresh air be your guide, while the giant Karri trees become your friends.

Singapore Tropical Gardens

Experience the magnificent 'Gardens by the Bay' with over 25,000 species of tropical plants and flowers.

Tropical Beaches

Welcome to Coron, a pristine beach in the Philippines! Paradise awaits!.

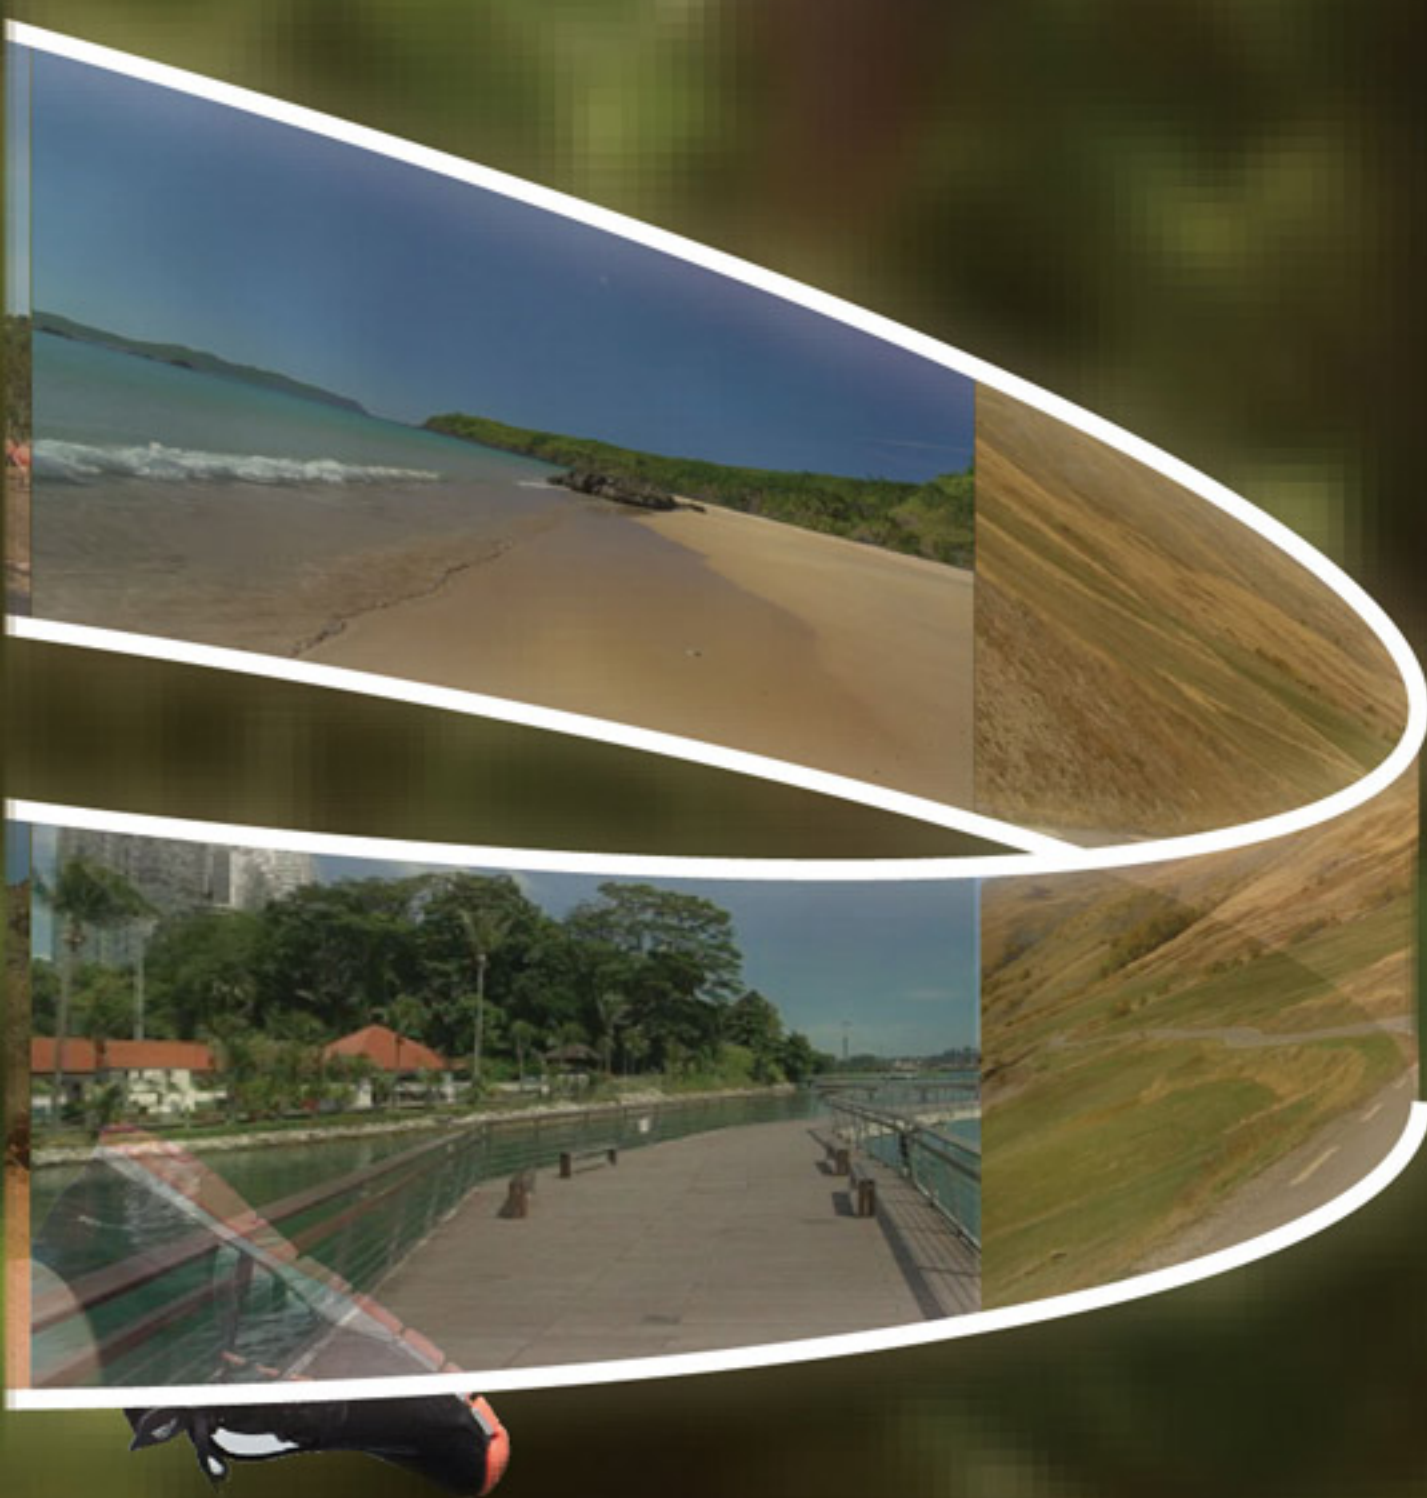

Alpine Mountain Passes

Begin your virtual walk through France and challenge yourself with each step. We'll see you in Italy!

Wetlands and Lakes

Experience a relaxing walk in one of Europe's largest wetlands. See if you can spot the birds!

Canyon Landscapes

Whether you're walking, jogging or running, let the beautiful desert landscapes take you away!

Singapore Boardwalks & Rainforests

Bring your workout closer to nature and enjoy the splendour that it has to offer.

Along the Beach

With the soft sand beneath your feet and the turquoise waters by your side, you will never want to stop running.

Circle Fitness Asset Manager

Updated and powerful, the new Circle Fitness Asset Manager is the platform to not only maximize your investment but to create a strong engagement with facility members for the most long term reward.

The background features a man in a grey suit and blue tie, smiling with his arms crossed. To his left is a laptop displaying the Circle Fitness Asset Manager interface, which includes a table of equipment with columns for 'Type', 'Status', 'Location', 'Warranty', 'Maintenance', and 'Notes'. To his right is a circular progress indicator with a blue arc, containing an image of a treadmill and the text '379.9 / 999.9 km'. The background also includes a bar chart and a line graph.

Latest Update

Receive latest information on equipment maintenance, new features, software updates or technical support.

Maximize Asset Utilization

Prolong the equipment lifecycle to its max and keep maintenance cost to minimum.

Usage: Total vs. Recent

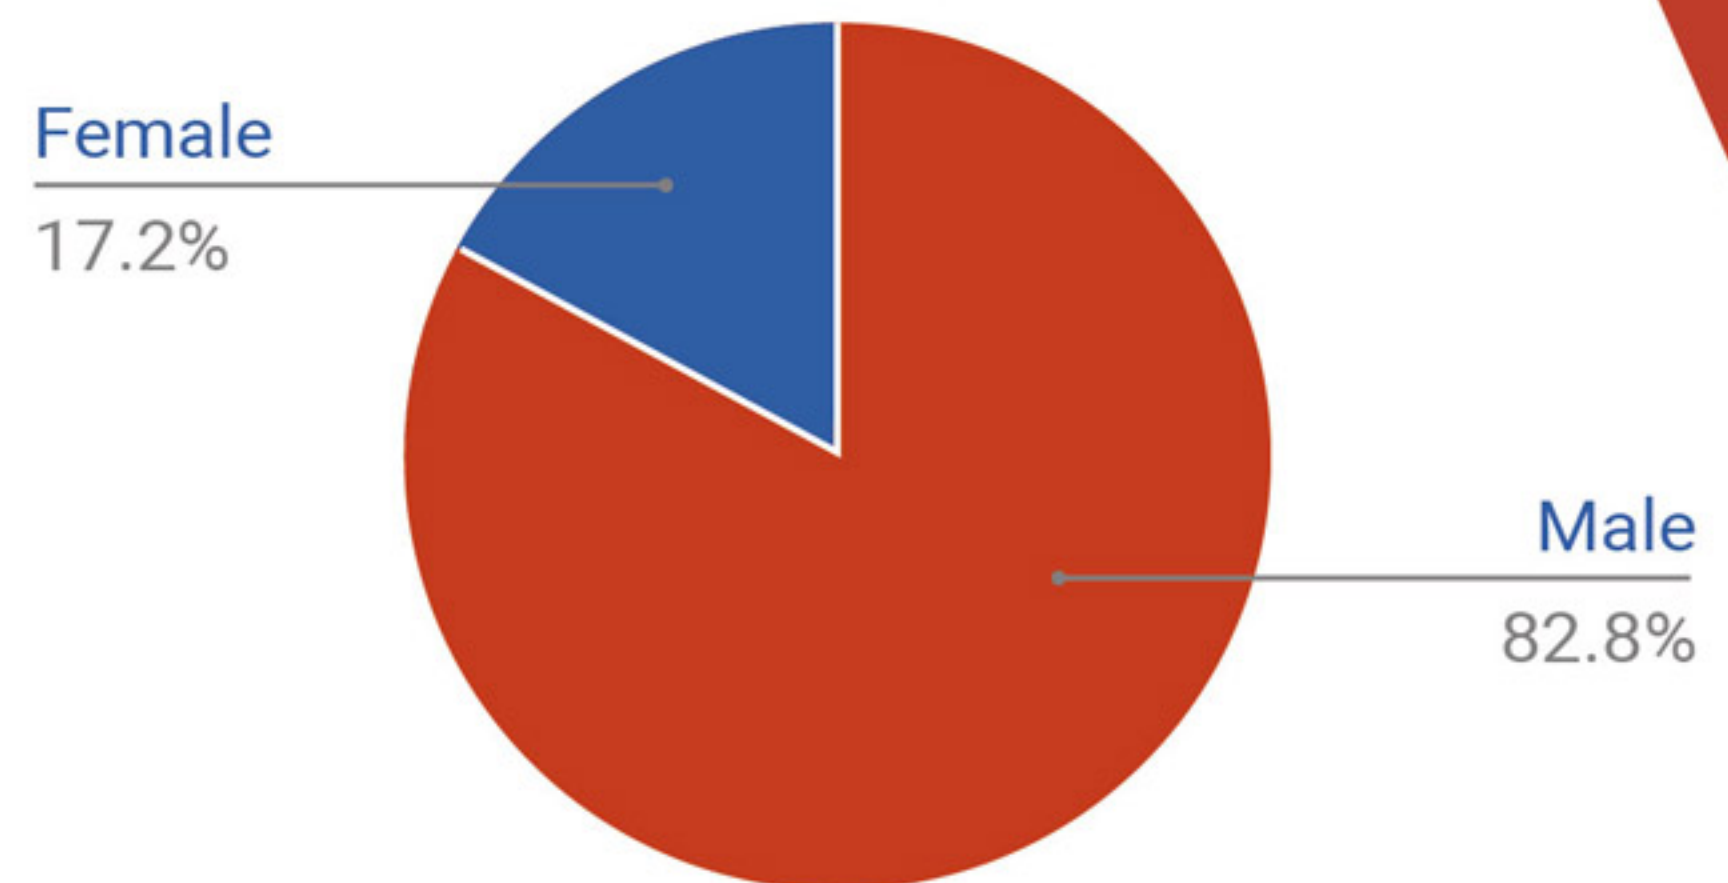

The graph is designed to help the facility operator balance the usage frequency of the equipments which in return maximize the equipment lifecycle.

Plan Better

Planning is paramount in extracting the most return from limited resource, be it floor space or class scheduling. We can help you gain the extra advantage.

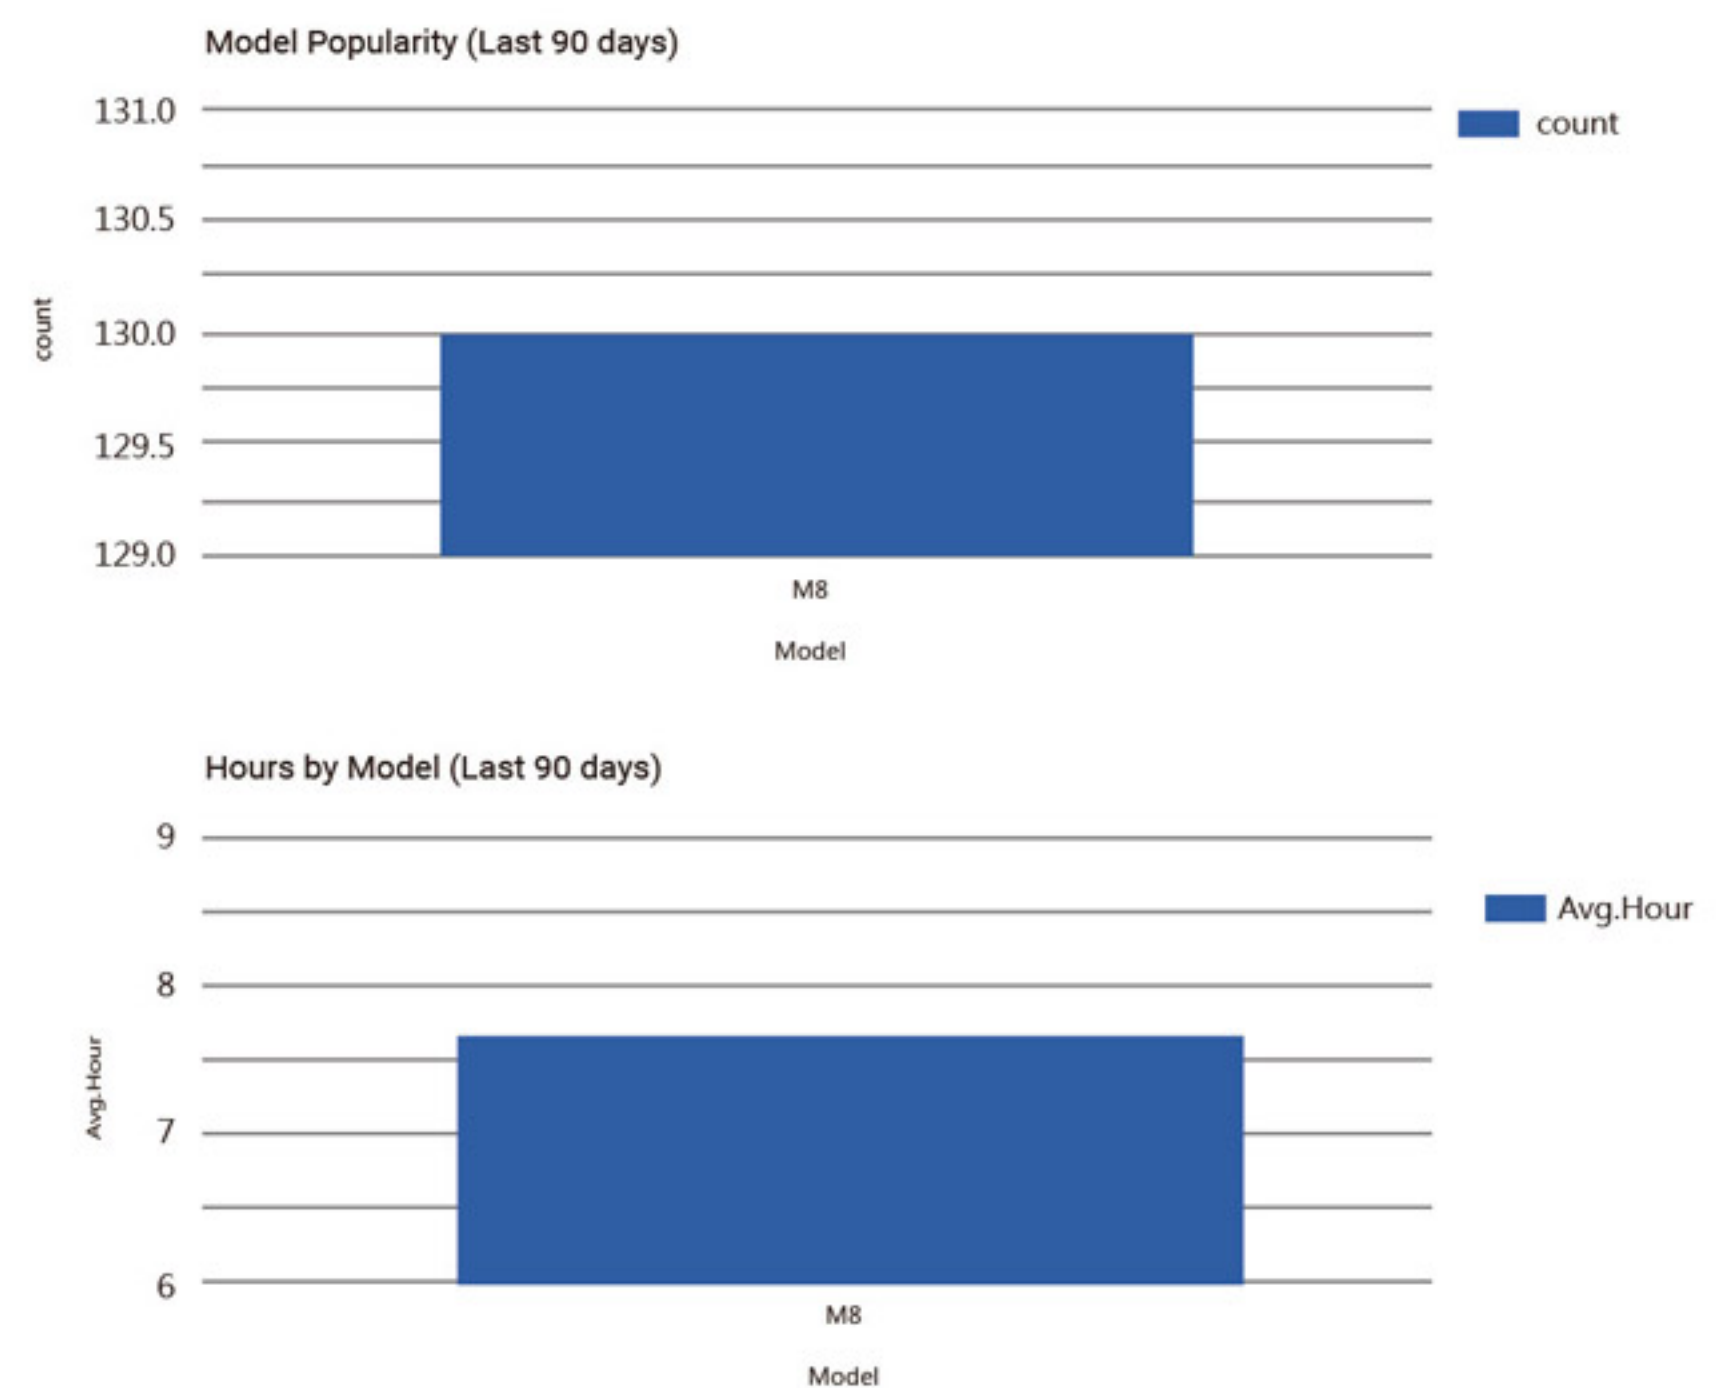

Demographic Study

This chart is designed to help you understand your customer base and their preference by selecting the demographic categories. Now you could plan equipment, floor space, facility ambience and even class better that are suited to your facility's demographic preference.

Preference Chart

Which equipments do your members use the most? Do you have right equipments for your members need? The easy to understand chart helps you floor plan better.

Engage Members

We believe member engagement is the future to the success of the fitness clubs. A member who is more engaged in his or her fitness regime the club has to offer will be more loyal and will introduce more of his or her friends to join. Member engagement = Member retention + Member expansion.

M6 Treadmill

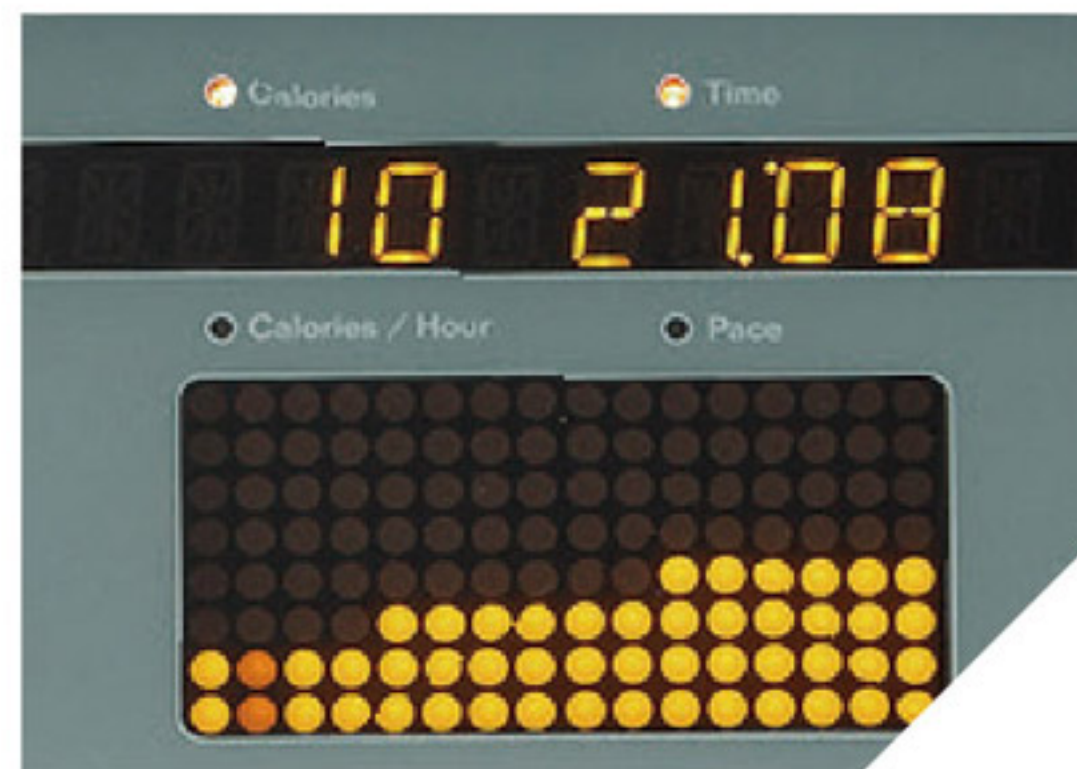

color 

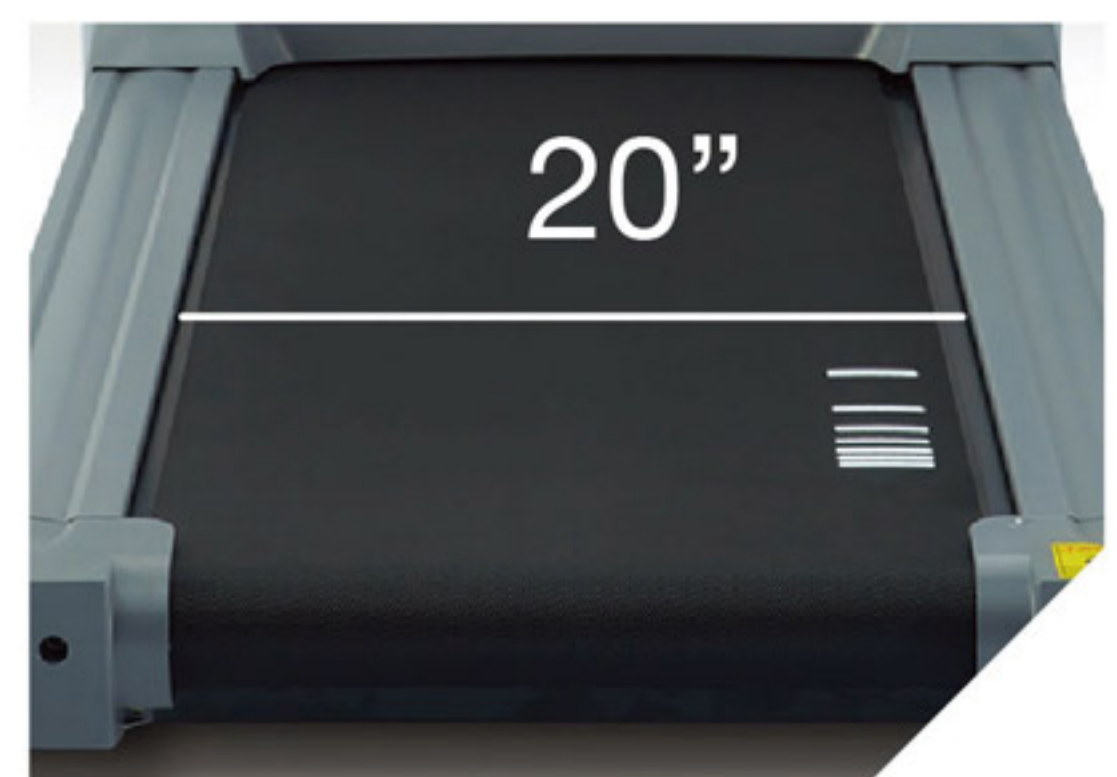

Fan

Multiple strength levels that provide a cool breeze as you exercise.

Heart Rate Training Zone

Heart Rate Control gives you control over your running pace by providing accurate status updates on your heart rate.

Large Running Surface

Features a 20"(W) x 60"(L) running surface, providing a comfortable workout for all.

E6 *Elliptical*

color 

Heart Rate Training Zone

Heart Rate Control gives you control over your running pace by providing accurate status updates on your heart rate.

Shift Lever

Ergonomic level control conveniently located in middle of console for easy access to input dates and resistance level adjustment.

Comfortable Stride

Thick padded pedals and silky smooth stride motion provides a comfortable and pleasurable workout.

B6 Upright Bike

color

Heart Rate Training Zone

Heart Rate Control gives you control over your running pace by providing accurate status updates on your heart rate.

Shift Lever

Ergonomic level control conveniently located in middle of console for easy access to input dates and resistance level adjustment.

Handle Bar

Specifically designed to accommodate workouts ranging from relaxed to rigorous. The soft gripped handle bar and padded elbow rest provide comfortable support for your upper body during workouts.

R6 Recumbent Bike

color 

Heart Rate Training Zone

Heart Rate Control gives you control over your running pace by providing accurate status updates on your heart rate.

Shift Lever

Ergonomic level control conveniently located in middle of console for easy access to input dates and resistance level adjustment.

Walkthrough Design

Makes mounting and dismounting easy and comfortable.

Sp6 *indoor cycle*

Woolen felt break system

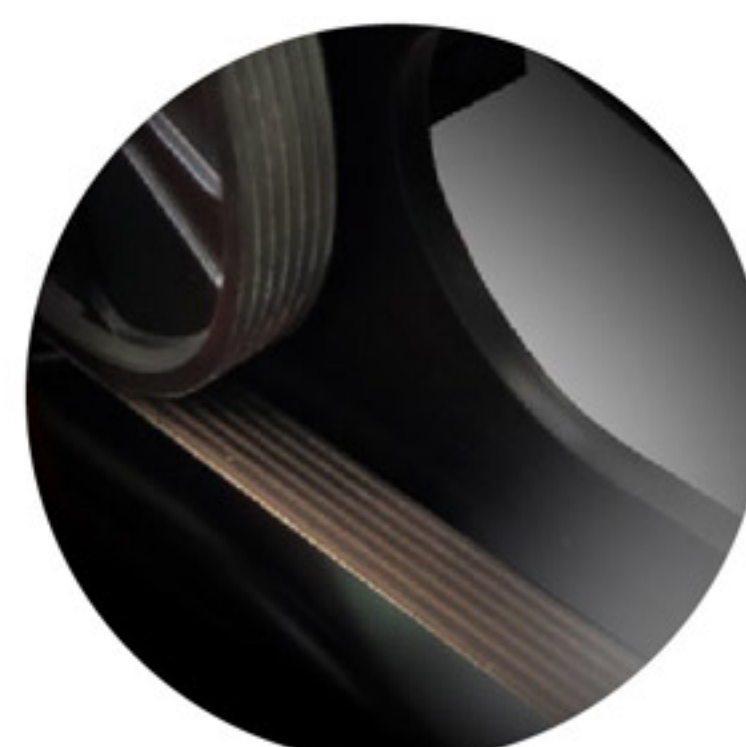

Easy adjustable Resistance control

Easy adjustable handle bar

Easy adjustable seat

Poly-v belt and smooth fly-wheel setting
